Vertical limits : SFC / 3500FT AMSL.

ADDITIONAL PROVISIONS

Helicopters

Reminder :

- In the ZRT, the minimal weather conditions for using helicopter routes departing from or going to NICE COTE D'AZUR aerodrome FATOs are :

	Visibility	Ceiling
Day	5 km	1500 FT
Night	8 km	1500 FT

- Special VFR : helicopters may get a special VFR clearance on routes between Nice and Monaco if :
 - VIS > 5 km
 - Ceiling > 1000 FT.

Creation of a helicopter transit route called « Grand Sud » defined between MONACO and CANNES using the following points :

EC - ET (2 NM South East of Point EA) - ST (2 NM South East of Point SB) – SA ; for use **in the daytime** at the altitude of *500 FT* when flying westward and *700 FT* eastward (see chart on page 1)

Contact FREQ for helicopters using the "Grand Sud" route : 123.150 MHz

Air traffic flow regulation measures may be implemented.

Airspace users are invited to consult additional information that may be published by the aeronautical information services, especially about the restrictions of use at Nice Côte d'Azur and Cannes Mandelieu airports.
