| Closed taxiway or runway .....                    |  |
| Route interne à l'aérodrome .....                 |  |
| Aerodrome service road .....                      |  |
| Clôture .....                                     |  |
| Fence .....                                       |  |
| Bâtiment (intensité du noir selon la carte) ..... |  |
| Building (black level according to chart) .....   |  |
| Aire de stationnement .....                       |  |
| Parking .....                                     |  |
| Poste de stationnement .....                      |  |
| Parking stand .....                               |  |
| Point INS .....                                   |  |
| INS position .....                                |  |
| Aire de posé "Hélicoptères" .....                 |  |
| Helicopter landing area .....                     |  |
| Poste de stationnement "Hélicoptères" .....       |  |
| Helicopter stand .....                            |  |

## BALISAGE ET AIDES A L'ATERRISSAGES / MARKING, LIGHTING AND LANDING FACILITIES

|                                                           |  |
|-----------------------------------------------------------|--|
| Manche à vent .....                                       |  |
| Wind direction indicator .....                            |  |
| Manche à vent éclairée .....                              |  |
| Lighting direction indicator .....                        |  |
| Indicateur de direction d'atterrissage .....              |  |
| Landing direction indicator .....                         |  |
| Indicateur de direction d'atterrissage éclairé .....      |  |
| Lighting landing direction indicator .....                |  |
| Indicateur visuel de pente d'approche (VASIS/PAPI) .....  |  |
| Visual approach slope indicator system .....              |  |
| Feu à éclat .....                                         |  |
| Flashing light .....                                      |  |
| Balise lumineuse .....                                    |  |
| Lighting beacon .....                                     |  |
| Feu d'obstacle .....                                      |  |
| Obstruction light .....                                   |  |
| Wig-Wag .....                                             |  |
| Wig-Wag .....                                             |  |
| Feu simple .....                                          |  |
| Light .....                                               |  |
| Rampe d'approche .....                                    |  |
| Approach lights .....                                     |  |
| Diffusomètre .....                                        |  |
| Scatterometer .....                                       |  |
| Radiobornes en éventail (vue en plan) .....               |  |
| Fan marker beacon (plane view) .....                      |  |
| Radioborne non implantée (vue en plan) .....              |  |
| No located marker beacon (plane view) .....               |  |
| Radioborne implantée, non implantée (vue de profil) ..... |  |
| Located, no located marker beacon (profil view) .....     |  |
