

Subject : Implementation of Flight plan Buffer Zones (FBZ) associated with Tempo Danger Areas “ZENA Gascogne” (LF-D 300 A) and “ZENA Gascogne restreinte” (LF-D 300 B)

With effect : From 26 March 2020 to 25 March 2021

1 - Description

A FBZ (FPL Buffer Zone) is a volume associated with a TSA, a CBA, a TRA, a Restricted Area or a Danger Area to prevent flight planning within or in the vicinity of a zone during its planned period of activity.

It is designed according to this zone with vertical and / or lateral buffers.

2 - Flight planning

Except otherwise specified in the RAD APP7, during the zone scheduled hours of activity, a flight plan overlapping with the FBZ volume will automatically be rejected by IFPS. Filing a flight plan via another route will be necessary. These provisions do not apply to aircraft involved in the activities taking place in this zone.

The FBZ activity is provided to users via the AUP (Airspace Use Plan) / UUP (Updated Airspace Use Plan) published in real time by Eurocontrol at : <http://www.public.nm.eurocontrol.int/PUBPORTAL/gateway/spec/index.html>

3 - Description of the FBZ associated with Area D 300 A
